

LIP MASTER CLASS

10-11 JULY

NEW CAIRO

DAY 1: FOUNDATIONS AND ADVANCED TECHNIQUES IN LIP AUGMENTATION

TIME: 10:00 AM - 5:00 PM

Learning Objectives for Day 1:

- Understand the anatomy of the lips and perioral region.
- Learn patient assessment and consultation techniques for lip augmentation.
- Master injection techniques for lip fillers, including volume enhancement, Russian Lips, and Fresh Lip Design.
- Recognize and manage complications associated with lip fillers.

10:00 AM - 10:30 AM: Registration and Welcome

- Introduction to the course and faculty.
- Overview of the agenda and learning objectives.

10:30 AM - 12:00 PM: Lecture - Lip Anatomy and Patient Assessment Islam Kassem

- Detailed review of lip anatomy, vascular supply, and nerve distribution.
- Techniques for assessing lip proportions and symmetry.
- Identifying ideal candidates for lip augmentation.

DAY 1: FOUNDATIONS AND ADVANCED TECHNIQUES IN LIP AUGMENTATION

TIME: 10:00 AM - 5:00 PM

12:00 PM - 1:00 PM: Lunch Break

1:00 PM - 2:30 PM: Demonstration - Lip Filler Techniques Prof .nevine Dorgham

- Live demonstration of lip filler injection techniques:
 - Vermilion border definition.
 - Volume enhancement.
 - Russian Lips technique (vertical injection method for a natural, lifted look).
 - Fresh Lip Design (customized approach for a youthful, hydrated appearance).
- Use of cannulas vs. needles.

2:30 PM - 3:30 PM: Hands-On Training - Lip Fillers

- Participants practice lip filler techniques on models under supervision.
- Focus on precision, symmetry, and patient comfort.

3:30 PM - 4:00 PM: Coffee Break

4:00 PM - 5:00 PM: Lecture - Complications and Management Islam kassem

- Common complications (e.g., swelling, bruising, vascular occlusion).
- Emergency protocols for managing vascular compromise.
- Post-treatment care and follow-up.

DAY 2: LIP DEPIGMENTATION, MESOTHERAPY, AND LASER TREATMENTS

TIME: 10:00 AM - 5:00 PM

Learning Objectives for Day 2:

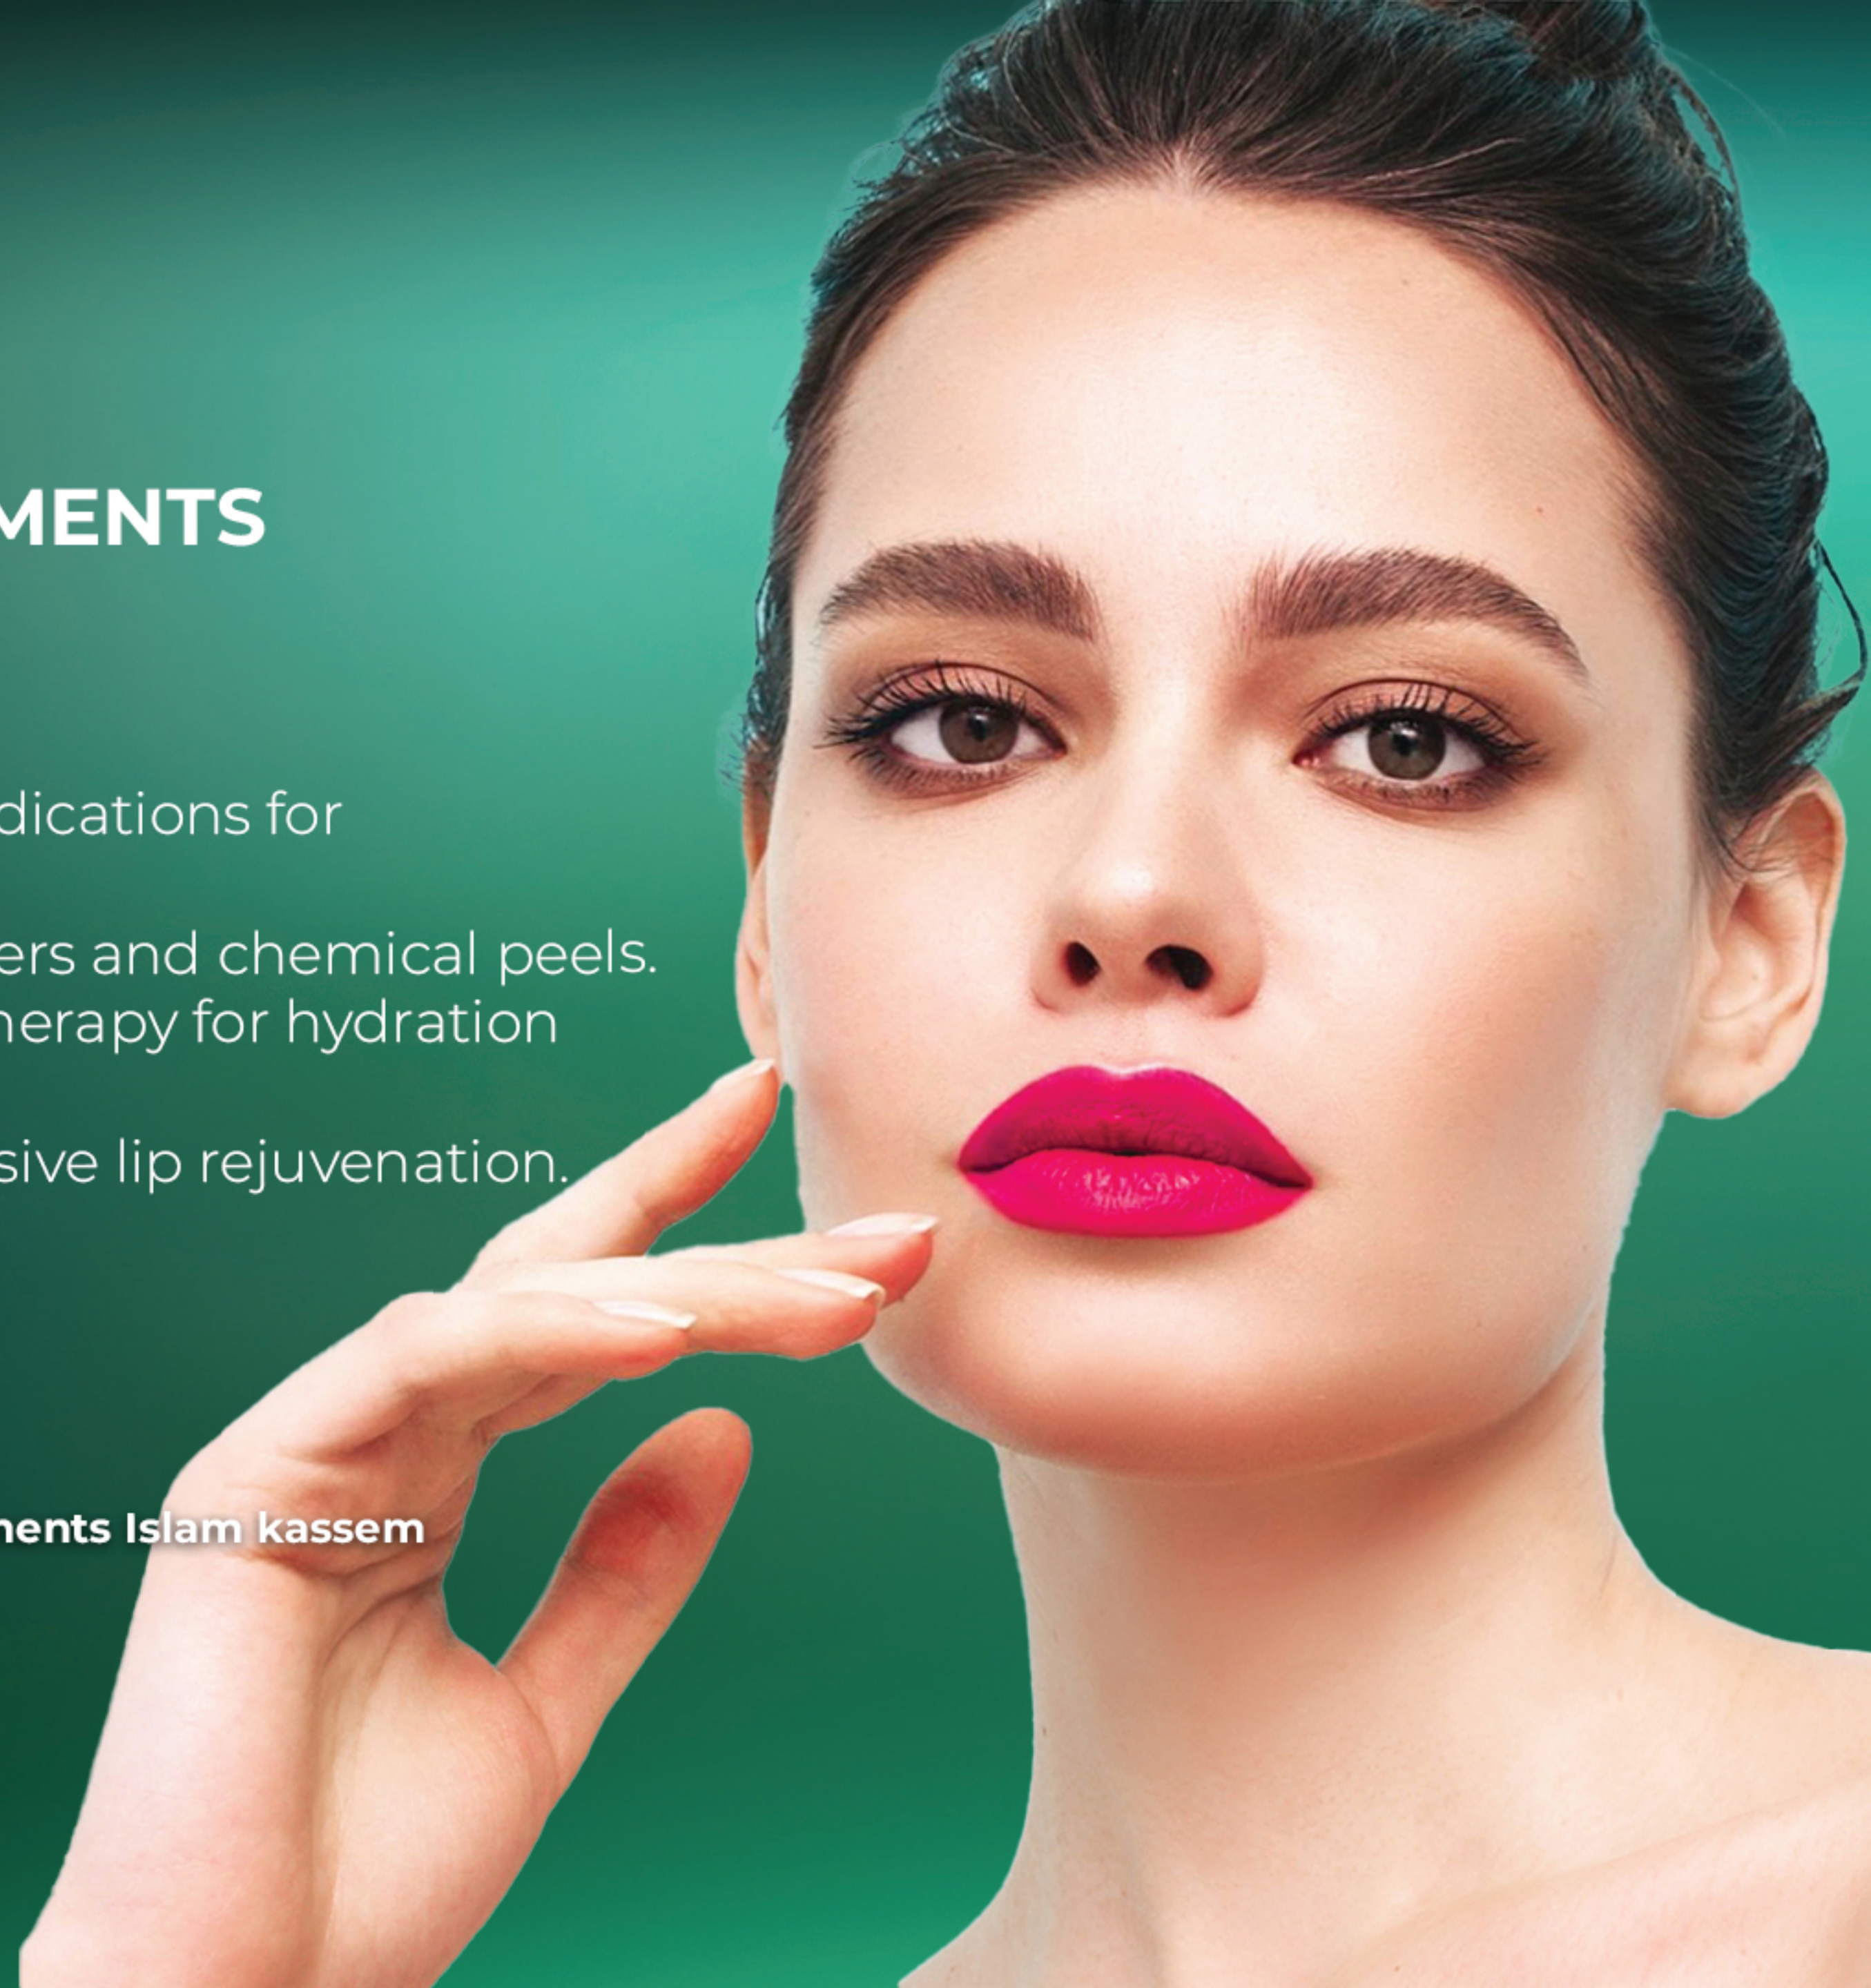

- Understand the causes of lip pigmentation and indications for depigmentation.
- Learn techniques for lip depigmentation using lasers and chemical peels.
- Master the principles and techniques of lip mesotherapy for hydration and rejuvenation.
- Integrate combination treatments for comprehensive lip rejuvenation.

10:00 AM - 10:30 AM: Recap of Day 1 and Q&A

- Review key takeaways from Day 1.
- Address participant questions.

10:30 AM - 12:00 PM: Lecture - Lip Depigmentation and Laser Treatments Islam kassem

- Overview of depigmentation techniques:
 - Laser treatments (e.g., Q-switched Nd:YAG, fractional CO2).
 - Chemical peels (e.g., TCA, glycolic acid, masks).
- Patient selection and pre-treatment preparation.

DAY 2: LIP DEPIGMENTATION, MESOTHERAPY, AND LASER TREATMENTS

TIME: 10:00 AM - 5:00 PM

12:00 PM - 1:00 PM: Lunch Break

1:00 PM - 2:30 PM: Demonstration - Lip Depigmentation and Laser Treatments Prof Nevine Dorgham

- Live demonstration of laser and chemical peel techniques for lip depigmentation.
- Discussion of settings, safety measures, and post-treatment care.

2:30 PM - 3:30 PM: Hands-On Training - Lip Depigmentation and Laser Treatments

- Participants practice depigmentation and laser techniques on models under supervision.

3:30 PM - 4:00 PM: Coffee Break

4:00 PM - 5:00 PM: Lecture and Demonstration - Lip Mesotherapy and Combination Treatments Prof Nevine Dprgham

- Principles of mesotherapy for lip rejuvenation.
- Formulations and ingredients (e.g., hyaluronic acid, vitamins, antioxidants).
- Injection techniques for hydration and volume enhancement.
- Integrating mesotherapy with fillers, laser treatments, and depigmentation for comprehensive results.
- Live demonstration and hands-on practice.

Key Features of the Program:

- Expert Faculty: Led by board-certified dermatologists and plastic surgeons with extensive experience in lip aesthetics.
- Hands-On Training: Participants will practice techniques on live models under expert supervision.
- Comprehensive Curriculum: Covers foundational and advanced techniques, including Russian Lips, Fresh Lip Design, laser treatments, and mesotherapy.
- Certification: Participants will receive a certificate of completion.

Target Audience:

- Dermatologists
- Plastic Surgeons
- Dentists

Materials Provided:

- Course handbook with detailed notes and diagrams.
- Access to video demonstrations and injection guides.
- Lunch and refreshments during breaks.

Dr. Islam Kassem, BDS, MSc, PhD, FDS RCS

Consultant Oral & Maxillofacial Surgeon
Faculty Member, FG Dental School
Founder, KMaxFacs

About Dr. Islam Kassem

Dr. Islam Kassem is a distinguished oral and maxillofacial surgeon based in Alexandria, Egypt. With a robust educational background and extensive clinical experience, he has made significant contributions to the field both nationally and internationally.

What You Can Learn from Dr. Islam Kassem

- Advanced Oral Surgery: Techniques in impacted teeth removal, minor oral procedures, and surgical extractions.
- Dental Implantology: Principles of implant placement, bone grafting, and prosthetic planning.
- Facial Trauma & Reconstruction: Management of maxillofacial injuries and surgical reconstruction techniques.
- Laser-Assisted Surgery: Application of lasers in periodontal and soft tissue procedures.
- Periodontal Surgery: Techniques for managing gum diseases and performing regenerative procedures.
- Facial Aesthetics: Surgical approaches to facial contouring and aesthetic improvements.
- International Standards & Protocols: Exposure to global practices through his international academic and surgical experience.
- Academic Research & Case Presentation: Learn how to document, analyze, and present clinical cases effectively.

Dr. Nevine Dorgham, MD

Associate Professor of Dermatology
Consultant in Aesthetic Medicine & Laser Treatments

About Dr. Nevine Dorgham

Dr. Nevine Dorgham is a renowned Associate Professor of Dermatology at Cairo University's Kasr Al Ainy Faculty of Medicine. She specializes in laser treatments and aesthetic dermatology, offering advanced skin care and non-surgical aesthetic procedures.

What You Can Learn from Dr. Nevine Dorgham

- **Laser Treatments:** Master the use of advanced lasers for skin rejuvenation, acne scars, pigmentation, and hair removal.
- **Aesthetic Dermatology:** Learn non-surgical treatments like Botox, fillers, and skin lifting techniques for facial aesthetics.
- **Skin Health Management:** Understand how to treat various skin conditions, such as acne, pigmentation, and aging signs.
- **Advanced Skin Rejuvenation:** Discover effective methods for improving skin texture, elasticity, and overall appearance.
- **Acne & Scar Treatments:** Learn specialized techniques for managing acne and reducing scars through modern dermatological treatments.
- **Professional Training:** Gain valuable insights from Dr. Dorgham's workshops and training sessions aimed at both medical professionals and the public.
- **Patient Communication & Care:** Learn how to educate patients about skin care and aesthetic procedures to achieve the best outcomes.
